Re: **Notice of Intent to Award – Hydrogeology & Environmental Services RFQ**
Town of Mammoth Lakes, Mono County

After reviewing the proposals received April 3, 2024 and subsequent interviews, the Mammoth Community Water District (MCWD) intends to award the contract to UES based on the scoring described in the request for qualifications. As a public agency all proposals and scoring are in the public domain and we will provide them upon request. Thank you all for submitting proposals, this was a hard decision as we received 10 proposals from highly qualified candidates. We narrowed this down to six candidates to interview, and further narrowed down to three short-listed candidates (See attached Summary). Thank you again for all the work that went into the proposals and please feel free to call or email with any questions.

Thank you,

Jake Trauscht
Senior Engineer

Mammoth Community Water District – Hydrogeology & Environmental Services RFQ Summary

MCWD received proposals from 10 highly qualified candidates, we reduced this down to 6 candidates to complete interviews with our panel of three reviewers. Based on the SOQs and interviews, this was reduced to a short-list of 3 final candidates whose scored rankings are included below. All SOQs received are considered public documents and will be provided upon request. Please call or email Jake Trauscht if you have any questions or would like details about our selection process.

Ten Firms Submitted
